

Awareness Raising Session held in collaboration with the National Women's Council

In the context of Human Rights Day, an awareness raising session was held at A.R Nujurally Municipal Hall, Cite Martial on 03 December 2024. A total of 29 women representing different socio-cultural organisations attended the session and 50 pamphlets were distributed to them for dissemination to their members. The pamphlet contains general information (in three languages i.e English, French & Creole) on the role and powers of the Ombudsman, including the procedures to be followed to lodge a complaint of alleged maladministration.

The session was followed by an interactive one whereby the participants were given the opportunity to discuss recurrent problems faced by them.
